

Dear FCC, Please take into consideration my thoughts on the "LPFM", which will effect my station 90.5 K-Love. They give positive news and have uplifting d.j.'s. They effect my mood and help me to want to be a good person to others and to be conciderate. They provide something other stations don't offer, "LOVE" for others, in place of judgment and date-mate talk. This station is contagious! My brother listens. Little ones listen and find, "Love", in place of the usual, hip-hop, and love-making, no clothes songs and singers. Please let us have a choice. Please don't push us aside. K-Love advertises for local positive concerts and events in Indianapolis, which wouldn't otherwise be known or attended. They reach out and get the people to help those in need, locally and in other states. Thank you.....
